

Drakelands Restoration Ltd - Hemerdon Mineral Processing Facility Permit Application

Application No EPR/AP3203ML/A001

Briefing 9: 11 July 2024

We would like to thank all those who took part in our third consultation on the environmental permit application.

We have decided to grant permission for an environmental permit to Drakelands Restoration Limited (DRL) to operate a Mineral Processing Facility at Hemerdon Mine. The Environmental Permit was issued on 10 June 2024.

We are sorry we could not tell you sooner; we were restricted by the [pre-election period](#). You may have already found out in the local newspapers.

You can view the final permit and decision document on our public register. Please call 03706 506 506 to request a copy.

The decision document explains in more detail how we have reached this decision. It also addresses the concerns you raised in your comments during our public consultation and how we have addressed these. You can view the decision document by calling our Customer Contact Centre on **03706 506 506** or emailing DCISEnquiries@environment-agency.gov.uk to request a copy. You may be charged for copying costs.

How can I get further information?

Keep an eye on our local social media channel: <https://x.com/EnvAgencySW>.

For more general information about our permitting process please see www.gov.uk/topic/environmental-management/environmental-permits

Please forward this briefing note on to anyone you think may be interested.

The purpose of this mailing list is to keep you informed about Hemerdon Mine. We are unlikely to write to you again in the near future, so if you only wanted to hear about this permit application and would now like us to delete your personal information, please let us know by emailing DCISEnquiries@environment-agency.gov.uk. If we do not hear from you, we will keep you informed about activities at Hemerdon Mine when we have more news to share.
